

Smart Home Solutions for Japan Vacation Homes

Designed Specifically for International Property Owners

COMMON CHALLENGES FOR OWNERS

Remote Location

Managing properties from overseas makes it impossible to respond to emergencies or monitor daily status.

Language Barriers

Navigating local Japanese service providers for security or maintenance can be difficult and time-consuming.

High Static Costs

Traditional management companies charge high monthly fees regardless of property usage or seasonality.

THE SOLUTION

Always Within Reach

A unified smart home ecosystem optimized for the unique climate and needs of Japanese vacation properties.

- ✓ Remote monitoring from anywhere in the world.
- ✓ Real-time smartphone alerts and notifications.
- ✓ One-time purchase with no recurring monthly fees.
- ✓ Multi-language support for international owners.

REMOTE SECURITY & MONITORING

Proactive Protection

Keep your property safe even when it's vacant for months. Our system detects intrusions and provides visual verification instantly.

- ✓ **Door & Window Sensors:** Real-time intrusion detection.
- ✓ **Motion Sensors:** Activity monitoring with instant push alerts.
- ✓ **Visual Verification:** Optional camera monitoring for peace of mind.
- ✓ **Zero Lag:** High-speed global cloud connectivity.

ENVIRONMENTAL PROTECTION

Freeze Prevention

Monitor indoor temperature in real-time. Receive alerts before pipes freeze in cold regions like Niseko or Hakuba.

Leak Detection

Early alerts for water leaks in kitchens or bathrooms, preventing catastrophic damage while the home is unoccupied.

Humidity Control

Track humidity levels to prevent mold growth during the humid Japanese summer, ensuring a fresh return.

REMOTE HOME CONTROL

Total Control, Anywhere

Prepare your home for your arrival or your guests' arrival with just a few taps on your smartphone. Save energy and money while maintaining comfort.

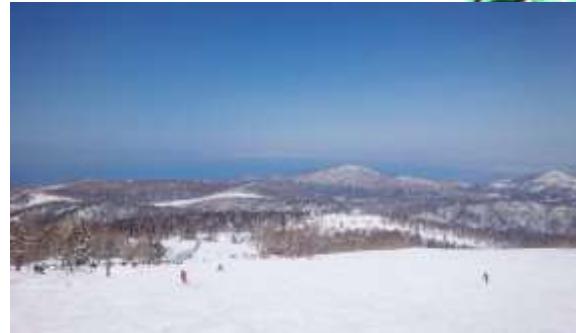

- ✓ **HVAC Management:** Turn on heating or cooling before arrival.
- ✓ **Appliance Control:** Ensure everything is off when you leave.
- ✓ **IR Controller:** Unified control for traditional Japanese appliances.
- ✓ **Energy Efficiency:** Reduce waste by monitoring usage during vacancy.

MULTI-SITE MANAGEMENT

Unified App Interface

Ideal for investors with properties across different regions. Manage your ski lodge in Hokkaido and your beach villa in Okinawa from the same screen. Separate permissions can be granted to local cleaning staff or guests for seamless hospitality management.

Global Compatibility

The system is built on a proven global platform used in over 50 countries. It integrates perfectly with Alexa and Google Home. Enjoy a consistent user experience regardless of where your property is located or where you are currently living.

PROVEN GLOBAL RELIABILITY

1M+

Homes Worldwide

50+

24/7

Global Connectivity

Our technology powers the security and comfort of over a million residences globally,
ensuring your Japanese investment is in safe hands.

COST ADVANTAGE: ZERO MONTHLY FEES

Comparison of total cost over 5 years (USD Estimate): One-time vs. Traditional Monthly Fees

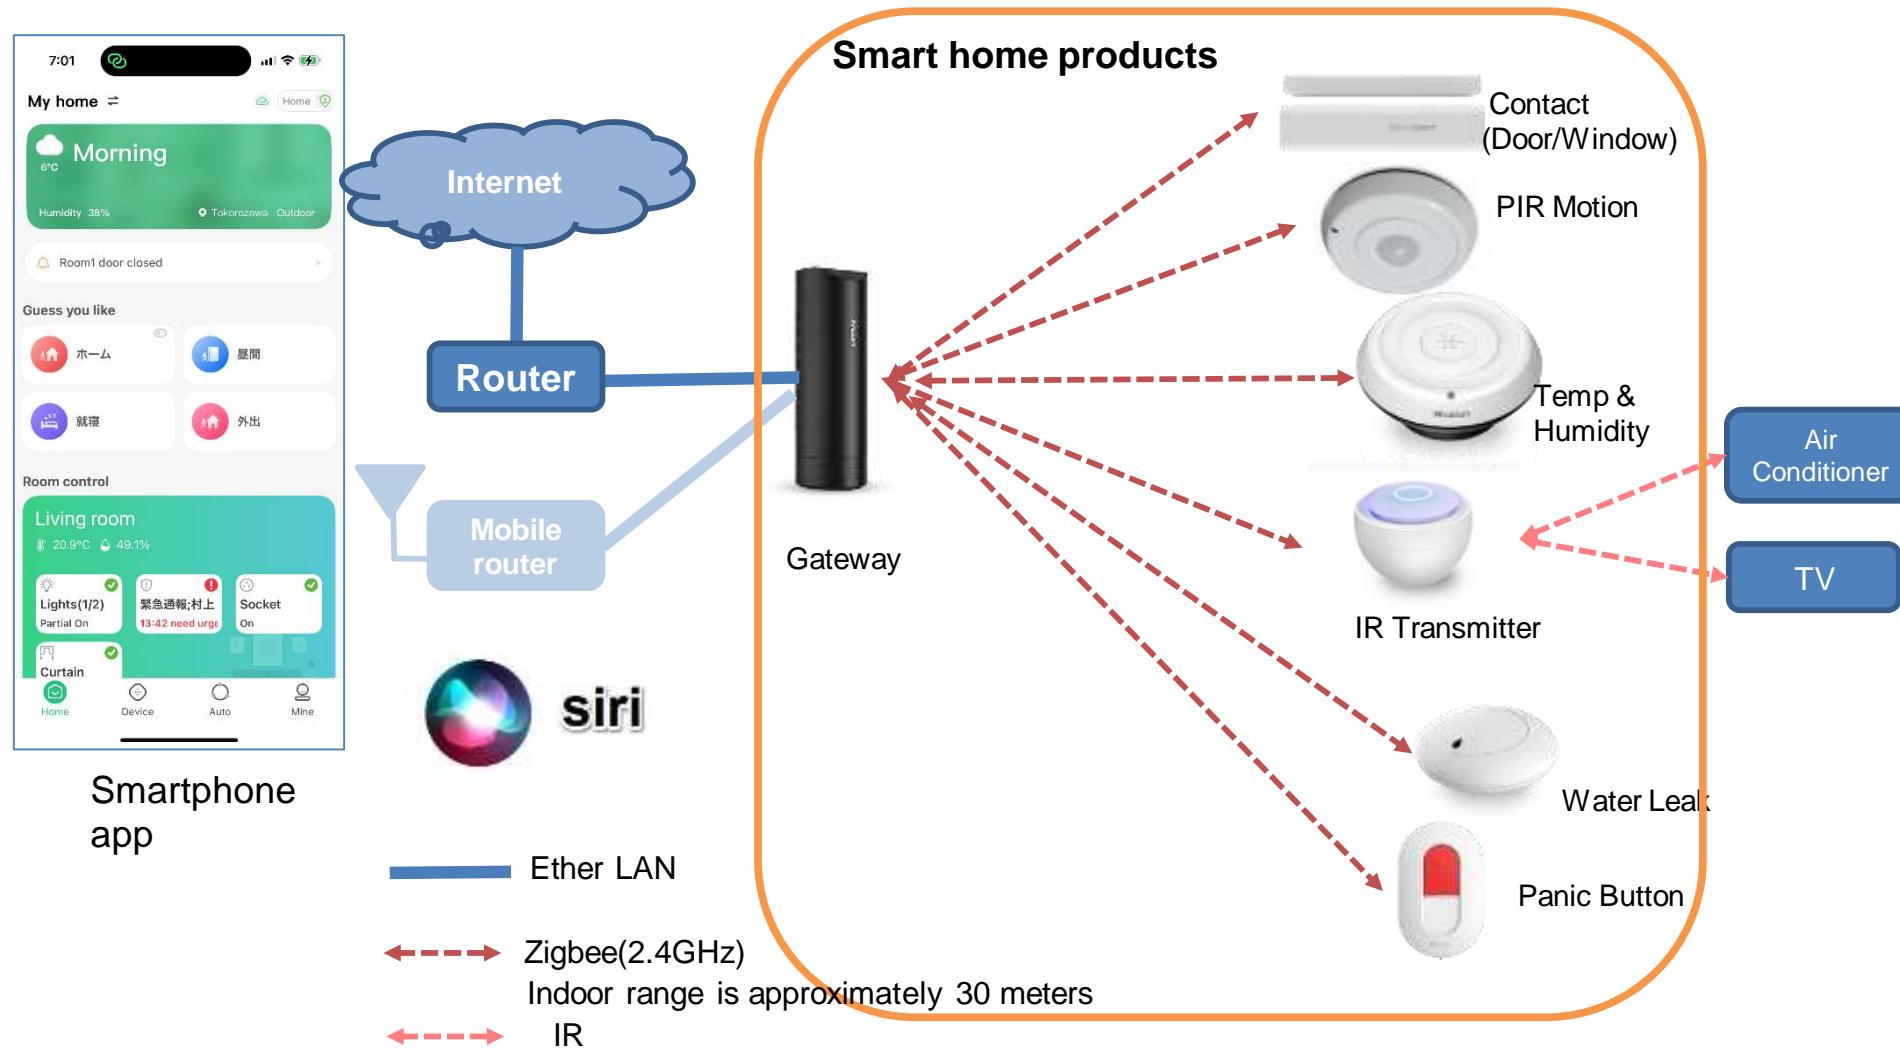

"Unlike traditional services, our solution pays for itself in less than 2 years by eliminating recurring management fees."

TYPICAL USE CASES ACROSS JAPAN

Smart Home Connection Configuration
